

GameTapeXchange Technology Survey

1. Do you currently have a digital video camera?
2. What is the brand of your computer? If you are using an Apple Computer, do you have access to a PC on campus?
3. What editing system (name and version), if any, do you currently use to break down your film?
4. What is your web browser?
5. Which Windows operating system are you currently running?
6. Does your computer have a firewire port? (This is different from a USB port. Firewire ports typically run between \$60 -\$100)
7. Do you have a firewire cable to run between your camera and computer? (These typically run around \$15)
8. Do you have an audio-digital convertor (canopus) box?
9. What is your computer's processor speed?
10. Does your computer have a minimum of 1 GB RAM?
11. Do you have a minimum of 120 GB of storage in your computer?
12. For your transfer of game films, can you have your IT staff open up FTP Ports 20 and 21 to www.gametapeexchange.com?
13. Does your network restrict uploads (FTP) or downloads (HTTP)?
